Re: Blow Up, LLC (BUL)  
KHKA(AM), Honolulu, HI  
Facility Identification Number: 31600  
Special Temporary Authority (STA)  
BESTA-20190128AAF

Dear Ms. Eichor:

This is in reference to the request filed on January 28, 2019. BUL requests an extension of the STA granted on July 10, 2017, to continue temporary ND operations along with co-located station KLHT(AM) to allow time to file an FCC Form 302 application for both stations.<sup>1</sup> In support of the request, BUL stated that construction of the new permanent facility is underway.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and BUL may continue to operate with the following facilities:

Geographic coordinates	21° 20' 09" N, 157° 53' 33" W (NAD 1927)
Frequency	1500 kHz
Hours of operation	Day and Night

---

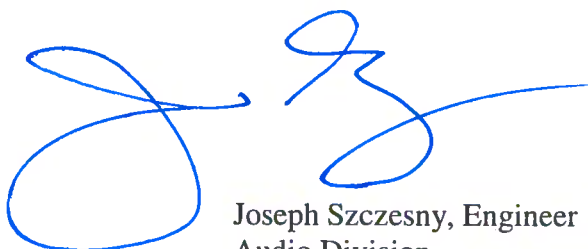

<sup>1</sup> KHKA(AM) is licensed for ND operation on 1500 kHz with 10 kW day and night, and BP-20180419ABS authorizes ND operation using the existing KLHT tower.

Operating power	5 kW
Antenna type	150 foot self-supporting tower
ASRN	1302728
Antenna radiator height	82.4 degrees
Antenna efficiency	300.75 mV/m/kW/km

BUL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 12, 2019**.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
